

Laundry

El Dorado Cleaners can process all of your soiled clothing for you, such as shirts and other “washable” items without you having to think twice about it. With the convenience and superior level of pressing that comes with commercial laundry, you can spend your time doing things you would rather be doing. It won't just be your dryclean-only clothes that look great. Your business-casual and casual attire will look their best, too.

Clean

Through the use of special detergents, additives and finishes, El Dorado sets professional laundering apart from home laundering. While home washers can do a good job of getting rid of some stains, and create a general appearance of cleanliness, drycleaning solvents are actually able to dissolve body oils and other grime that water simply cannot penetrate or remove.

Crisp

Professional laundering keeps your garments looking their best. Collars come cleaner and professional pressing offers a crisper finish, not to mention professional stain removal and even button replacements. Home clothing care cannot give you the same results as professional cleaning. Those garments invariably fall short of the crisp look they could have gotten from a drycleaner.

Convenient

Time is more valuable than money these days, and we have the equipment to give your clothes a better cleaning than any home equipment ever could. All you have to do is bring your clothes in and pick them up on your way to work or on the way home.

El Dorado Cleaners is here to make your life easier and help you spend your time the way you want to!
